

# SIENA & SAN GIMIGNANO

## LIV02 : Journey back through the ages

Your personal driver will collect you directly from your ship at 8am for the hour and a half drive to the centre of Siena. He will take you right into the heart of the city (piazza del Campo or Duomo) for you to enjoy Siena on your own or you may wish to book a 3 hour walking tour with one of our guides. Please note that due to the multiple steps and hills it is almost impossible to drive around the city centre but it's easy to get around and discover the historic highlights which include the Palazzo Pubblico, the Pinaoteca painting gallery, the Archeological Museum and the marvels of the marbled Cathedral and Baptistry. Stroll down the various winding streets, climb the Torre del Mangia in the main square for spectacular views across the city and afterwards descend for a hearty lunch in the grand Piazza del Campo where the Palio is held each July and August. We can help make lunch suggestions and restaurant reservations whether it be for a light snack or for delicious home-cooking in a the warm and welcoming ambience of one of the many wonderful restaurants that Siena has to offer. After lunch take a leisurely 30 minute drive to SAN GIMIGNANO to stroll around the city, explore the beautiful piazzas and admire the views from the hilltop. The town is renowned for its Vernaccia di San Gimignano wine (one of the few DOCG white wines of Italy) and it has also reintroduced the farming of saffron which was cultivated here in the Middle Ages and was an important part of the city's economy. Before returning to port, enjoy a gelato from Sergio at Gelateria di Piazza, Italy's champion gelato-maker! The hour and a half return journey will have you back at your ship in the port of Livorno at around 5:00pm.
